Ron Paul Endorses Michael Cloud in Congressional Race

Lake Jackson – Ron Paul, a long-time Texas Republican congressman and three-time presidential candidate, has announced his endorsement of Michael Cloud, who is running for Congress in the 27th District of Texas.

“I worked with Michael when he served in the Victoria Young Republicans Club, and again when he was Chairman of the Victoria County GOP. I know him to be a man of his word, principled, trustworthy and hardworking,” said Paul. “I hope my former supporters will get behind him because our country desperately needs leaders with integrity, courage and moral character. Michael Cloud is that kind of leader.”

Paul represented Texans in Congress for 24 years, retiring in 2013. He is widely considered the leader of the modern-day Liberty movement.

Cloud announced his candidacy in September 2017, vowing to “fight the culture of corruption in Washington.”

Cloud, a business owner, currently represents 21 counties as a member of the State Republican Executive Committee. He was elected to four terms as chair of the Victoria County Republican Party and has served on staff at Faith Family Church in Victoria, Texas. Cloud and his wife Rosel have three children.

“I am very honored by this endorsement,” said Cloud. “And I thank the good doctor for his confidence in me.”
